

Lehrstuhl Informatik 2 is looking for

## **software engineering HiWi's**

the prospective candidate:

- feels formal methods (model checking)
  - programs efficiently (Python)
  - speaks sufficient English
- 
- Works 9 to 19 hours per week
  - Starts after 01.02.2013

Prospective HiWi's will work in the European Space Agency project HASDEL, successor of COMPASS ([compass.informatik.rwth-aachen.de](http://compass.informatik.rwth-aachen.de)). HASDEL aims to enhance COMPASS for designing the next generation rockets.

Email for inquiries with CC to:

- Prof. Dr. Ir. Katoen [katoen@cs.rwth-aachen.de](mailto:katoen@cs.rwth-aachen.de)
- Prof. Dr. Noll [noll@cs.rwth-aachen.de](mailto:noll@cs.rwth-aachen.de)
- Dr. Ir. Nguyen [nguyen@cs.rwth-aachen.de](mailto:nguyen@cs.rwth-aachen.de)

**You want to ...**

**build the most  
advanced tools  
for designing  
rockets?**

**learn applying  
theory to space  
industry?**
